About the Organization

Vivekananda Educational And Goshala is a socially committed organization working with the aim of promoting education, community welfare and compassionate development. The organization seeks to create a positive social environment by undertaking initiatives that encourage awareness, learning, responsible community participation and care for living beings.

Through its various activities and community-oriented efforts, the organization works to connect education with social responsibility and values-based development. Its approach focuses on encouraging people, especially within local communities, to participate in constructive initiatives that contribute to social well-being and a more caring and responsible society.

With a commitment to service and community development, Vivekananda Educational And Goshala continues to undertake meaningful activities that support education, social awareness and welfare. The organization believes that sustained community participation, ethical values and dedicated service can create a stronger and more harmonious society.

Food & Nutrition Program

Vivekananda Educational And Goshala is actively undertaking Food & Nutrition Program activities aimed at promoting healthy eating habits, proper nutrition and overall well-being among school-going children. As part of the initiative, nutritious food items and fruits are provided to children in a caring and supportive school environment.

The photographs show the representatives/teachers of **Vivekananda Educational And Goshala** personally assisting and feeding children with nutritious food. Such direct involvement ensures that young children receive their food properly and comfortably while creating a friendly and caring environment during the activity.

The program also focuses on encouraging children to understand the importance of nutritious food, fruits, balanced eating habits and healthy lifestyle practices. By providing healthy food and guidance at an early age, the initiative supports the development of positive food habits among children and increases awareness about the role of nutrition in healthy growth and learning.

Through this Food & Nutrition Program, **Vivekananda Educational And Goshala** contributes towards the healthy growth, energy, concentration and overall well-being of children. The participation of teachers and caregivers further strengthens the initiative by ensuring proper care, attention and encouragement for children during the food distribution and feeding activity.

Tree & Plantation Program

Vivekananda Educational And Goshala organizes the Tree & Plantation Program to create awareness among school children about the importance of trees, plants, and environmental protection. The program encourages students to understand how trees contribute to clean air, a healthy environment, and ecological balance.

The program includes environmental awareness sessions and tree plantation activities for school children. Students are guided about the importance of planting trees, protecting existing plants, maintaining cleanliness, and taking care of the environment in their daily lives.

Through practical plantation activities, children are encouraged to actively participate in planting and caring for saplings in their school and surrounding areas. This hands-on involvement helps develop a sense of responsibility and encourages students to become more connected with nature.

Through this initiative, **Vivekananda Educational And Goshala** aims to promote environmental awareness among children and encourage them to actively contribute to creating a greener, cleaner, and healthier environment.

Women Empowerment

Vivekananda Educational And Goshala implements the Women Empowerment Program to promote awareness, confidence, and active participation among women in social and community development. The program focuses on creating awareness about women's rights, dignity, equality, education, health, and opportunities for personal growth.

Through awareness sessions, interactive activities, and community-based initiatives, women are encouraged to understand their rights and responsibilities and develop greater confidence in making informed decisions. The program also promotes awareness about available opportunities for education, skill development, and self-reliance.

The initiative aims to encourage women to actively participate in their families and communities and to overcome social and economic challenges. Special emphasis is placed on building knowledge, confidence, and decision-making abilities among women.

Through this program, **Vivekananda Educational And Goshala** aims to support women in becoming more confident, aware, and empowered members of society, contributing positively to their families and communities.

Culture Program

Vivekananda Educational And Goshala organizes the Culture Program to create awareness among school children about India's rich cultural heritage, traditions, values, and diversity. The program encourages students to learn about and appreciate their local as well as national cultural identity.

The program includes cultural awareness sessions, traditional celebrations, Sambalpuri dance, folk dance, music, traditional art, local customs, festivals, and other cultural activities. Students are encouraged to actively participate and showcase their talents through various cultural performances.

Through these activities, children get an opportunity to understand and experience traditional culture while developing confidence, creativity, teamwork, and respect for different cultural practices. Special emphasis is given to promoting and preserving local traditions and folk heritage.

Through this initiative, **Vivekananda Educational And Goshala** aims to encourage the younger generation to value, preserve, and carry forward India's diverse cultural heritage, including the rich Sambalpuri cultural tradition.

Stronger Foundations. Brighter Futures.
